Multi-State Municipal Funds (cont'd)

The information below summarizes the percentage of exempt interest income received by various BlackRock Closed-End Funds on a state-by-state basis. These percentages may be useful in completing your state tax return. In addition, the percentage of income that represents a tax preference item (relating to tax-exempt interest income from certain private activity bonds) for Federal Alternative Minimum Tax ("AMT") purposes is included for each Fund. Your portion of the exempt-interest income has been included on your Form 1099-DIV. Some states require a minimum percentage of home state bonds to permit the state tax exemption. *Shareholders are urged to consult their tax advisor concerning the application of this information.*

Foreign Source Income

The information below summarizes the percentage of income that was derived from foreign sources with regard to certain BlackRock Closed-End Funds. The foreign source income has taxes associated with it that were paid by each Fund to various foreign jurisdictions. The Fund listed below has qualified to “pass-through” the foreign taxes to its shareholders. Accordingly, you may either deduct your portion of the taxes in computing your taxable income or take a credit for such taxes against your tax liability. These deductions or credits may be subject to limitations under the tax law. Your portion of the foreign taxes have been included on your Form 1099-DIV. The information below is provided to assist you in computing your foreign tax credit. *Please consult your tax advisor regarding the appropriate treatment of foreign source income and foreign taxes.*
